### OFFTEC Deploys Comprehensive School Management System at Jordan's Private Schools

Posted: 27-01-2008 , 13:56 GMT

Falling in line with its objective to bring the latest educational solutions to schools across the Kingdom, OFFTEC IT Solutions is introducing Administrator's Plus, the Rediker Software Student Management System, which has been deployed at Jordan's key private schools, including King's Academy, International Academy - Amman and Amman Baccalaureate School.

Administrator's Plus is a comprehensive, easy-to-use software solution that was designed by educators for educators to streamline administrative tasks and manage student information throughout the entire school, which is easily placed online to help improve school-to-home communication.

Rich Rediker, CEO and founder of Rediker Software said, "We, at Rediker Software, are excited to be in a strong partnership with OFFTEC and look forward to a long, harmonious relationship that will benefit all parties, especially schools and students. Like OFFTEC IT Solutions, we have been in business for a long time and are committed to bringing our expertise to schools in Jordan. We are thankful for that opportunity."

Ibrahim Al-Jararreh, OFFTEC IT Solutions General Manager said, "Most Student Management Systems that we have evaluated are limited in their applications, hard to implement and use, don't meet the schools' new computing requirements such as portals and reports, and are rather expensive. But Rediker Software's solution is different - it encompasses many modules and applications for schools' current and future requirements. It is easy to operate - within 2 weeks, our current customers were able to use Administrator's Plus during their daily operations. The system is also affordable for most schools in Jordan and the region."

He added, "We are all optimistic about our partnership with Rediker Software and we are ready to serve our current and future customers in Jordan and neighboring countries."

Administrator's Plus is an innovative school management system. It incorporates technology into schools' daily operations and provides something for everyone: administrators, MIS specialists, technology coordinators, guidance counselors, secretaries, teachers, nurses, librarians, admissions directors, lunch room directors or special education directors.

OFFTEC is part of OFFTEC Investment Group (OIG), a JD 42 million public shareholding company, trading on the Amman Stock Exchange under the symbol (BDIN), which owns along with OFFTEC, two other companies namely e-Points and OFFTEC International Investments.

OFFTEC was established in 1910 and has grown to become a multi-million dollar corporation, operating in Jordan with 120 employees and Palestine with 30 employees, and clients in six countries across the Middle East. OFFTEC offers a wide range of optimal products and services that empower businesses to better serve their customers and achieve their business goals in the fields of Banking Technologies, Content Management Solutions, Integrated Solutions, Office Equipment, Office Furniture, Project Management, Software Development, IT Infrastructure, IT Security, Physical Access & Monitoring, Notebook Computing and Leasing Services. OFFTEC excels in providing innovative solutions to local and regional clients
