

The School Office Suite

An Integrated System for the Entire School

One Unified Solution for All Departments

The **School Office Suite**® is a fully integrated system of school administrative software programs that unifies record keeping school-wide and eliminates duplicate data entry. The foundation of the Suite is Administrator's Plus®, Rediker Software's student information system. When student information is entered or edited in Administrator's Plus, that information will appear throughout all other programs in the School Office Suite.

Why the School Office Suite?

Eliminate the frustration of disconnected departmental software programs and let the School Office Suite create one flexible system to manage your entire school's data.

- Connect all school departments.
- Simplify record keeping school-wide.
- Eliminate duplicate data entry.
- Purchase only what you need.

Connect Your Entire School

Imagine a school administrative software system that quickly and easily manages your school's time-consuming record keeping. Imagine an integrated system that fulfills the needs of the entire staff: administrators, secretaries, registrars, guidance counselors, teachers, nurses, librarians, cafeteria cashiers and business managers...giving everyone more time to devote to education. That's Rediker Software's School Office Suite.

Connect All Departments in Your School with a Complete Integrated System:

- Administrator's Plus
- Admissions Plus Pro
- Teacher Evaluator
- SNAP School Nurse
- Atrium Library
- QuikLunch Cafeteria
- Sustain Development
- AP Accounting

School Office Suite®

Administrator's Plus® by Rediker Software

Administrator's Plus, a cloud-based student management system, is the heart of the School Office Suite. Intuitive and easy to use, Administrator's Plus includes innovative features not found in other systems. From demographics, attendance, report cards, grades, scheduling, and billing, to online forms and online bill payments, Administrator's Plus does it all to help your school save time and money.

Admissions Plus Pro® by Rediker Software

Reach your school's enrollment goals with Admissions Plus Pro, a complete admissions management solution. Track each applicant step by step through the entire admissions process, from online inquiries and online applications to enrollment. When students are accepted they are automatically entered into Administrator's Plus.

Teacher Evaluator® by Rediker Software

Improve teacher effectiveness and meet Race to the Top requirements with Teacher Evaluator. Rediker Software's classroom observation tool allows you to schedule and complete evaluations with ease. Teacher Evaluator is a stand-alone, web-based application that is optimized for the iPad® and works with any web browser.

AP Accounting by Rediker Software

AP Accounting is Rediker Software's fund accounting software program for schools. Features include student billing, accounts payable, accounts receivable, general ledger, fixed assets, online payments, and more.

SNAP Health Center™ by PSNI

SNAP Health Center for the school nurse manages student health records that need to be tracked by schools or school districts: immunizations, screenings, analyses, visit and medical logs, reports, and much more. Nurses can easily customize the program to meet their school's unique needs and state requirements.

Atrium® Library by Book Systems®

Atrium Library is a web-based solution that manages cataloging, circulation, inventory, reports, and other tasks handled by the school library. Students can use ID cards produced in Administrator's Plus to check out books. Atrium also provides library patrons with easy access to the library catalog online.

QuikLunch by PaySchools

QuikLunch is a web-based, point-of-sale application that is designed to streamline school cafeteria transaction services. The fast process checkout works with PIN pads, card readers and other digital input devices. Each account is managed in the system and kept up to date with online payments, free/reduced meal qualifications and more.

Sustain Fundraising by Sustain Software

Sustain Development assures fundraising success with powerful and intuitive tools to cultivate long-term donor relationships, send personalized appeals, track contacts and process donations of any kind, including online donations. Up-to-the-minute queries and reports provide the whole picture at a glance.
