“Apply Now!” Online Applications

Implement a convenient and efficient enrollment experience for prospective families by engaging them online.

- **Easy-to-use Form Builder** allows your school to create custom online forms for inquiries, applications, visitations, e-recommendations, payments, etc.
- **Dynamic data fields** - send the information directly to AdmissionsPlus, eliminating extra data entry.
- **Pre-populated data** helps speed up the process for families that have completed another form or are already registered. Partially completed forms are stored and may be finished later.
- **Upload documents**, such as birth certificates, photos and recommendations. They are automatically attached to requirements in AdmissionsPlus.

Flexibility to Meet Your Unique Needs

AdmissionsPlus makes it easy to set different prospect requirements for different grades or programs as required.

Built-in tools help pinpoint prospects that meet your school's expectations - from GPAs, entrance exam scores, athletics, and legacy, to simply completing all the admissions steps.

Step by Step From Inquiry to Acceptance

Data entered by a prospect via our online forms and applications flows seamlessly into AdmissionsPlus for tracking, communication, analysis, and decision making. Once students are accepted, their information can be sent directly to the associated school year in AdminPlus or any student information system.
