

AP Mobile Apps

Student and Staff Data Anywhere, Anytime on iOS and Android Devices

Rediker Software's **AP Mobile Apps** for iOS and Android® bring your Administrator's Plus® data onto your favorite mobile device, so even when you are away from your computer you can still have important staff and student information at your fingertips.

- Demographics and Contacts
- Daily and Period Attendance
- Grades and Narratives
- Student Schedules
- Discipline and Incident Reporting
- Student and Staff Pictures
- Notifications (Requires AP Notify)

Featured Highlights of AP Mobile Apps

- Easily search and scroll through all students, staff and contacts to quickly call, text or email.
- Access student demographic fields such as allergy information and locker combinations.
- See when a student is absent or tardy.
- Know what class a student is scheduled to be in at any time.
- Assess how a student is performing in school by viewing his or her grades.
- Enter new discipline incidents and attach a photo taken from your iPhone or Android device to the incident.
- Your data is secure: Remotely erase all school data on a lost or stolen device to prevent your confidential data from being accessed by unauthorized users.
- AP Mobile Apps are optimized for iPad.

Who are the apps for?

- ✓ Principals
- ✓ Administrators
- ✓ Hall Monitors
- ✓ Chaperones
- ✓ Coaches
- ✓ Security Guards

Use **AP Mobile Apps** on a smartphone or tablet when away from the computer.

Instant Access to Student Information in an Emergency

Coaches: Athletic staff have fast access to athletes' emergency and parental contact information with the ability to call by simply pressing the phone icon next to the phone number.

Field Trip Leaders: Field trip chaperones can be given access to student health alert and contact information. User rights settings allow you to control what student data chaperones can view.

Safe and Secure

Wipe data from any lost or stolen device with the enhanced security manager program. Data on a device is encrypted and cannot be accessed without connecting briefly to the Internet. If indicated that the device should be shut off, all data will be removed. While traveling, specify that the device is allowed to operate for up to a week without checking the Internet.

Student/Staff Database

Choose any database fields from Administrator's Plus to view in the AP Mobile App, including Contact Database fields and alert fields.

Discipline and Incident Reporting

View previous infraction details and add new incidents while at the scene. Attach a photo taken with your mobile device to the incident. Track bullies and victims to run reports that comply with anti-bullying mandates.

Daily and Period Attendance

Access attendance information to find out if a student is absent, tardy or dismissed. In the event of an emergency, knowing which students are in school is critical.

Schedules

View student schedules in line format. A valuable security feature, the mobile app automatically highlights the class the student should be in during the current period.

Grades and Narratives

Observe how a student is performing in class. View grades, skills, narratives and GPA information.

Notifications with AP Notify

Quickly notify thousands of contacts within your school community via email, text and voice message without having to import data.
